

2018 Product news calendar

Gennaio | *January*

I30 series

- Compact & versatile incremental encoder
- Size 30 mm with up to 2048 PPR
- Robust metal housing

Febbraio | *February*

IXAR inclinometer

- Redundant version (2 sensors+outputs)
- Analogue current or voltage output
- Robust metal housing
- Integrated TVS filter

Marzo | *March*

LD200/LD300 family of displays

- Multicolour touchscreen
- Clear text parameters & information display
- Incremental, absolute & analogue input

Aprile | *April*

HANNOVER MESSE

April 23 - 27, 2018
Hannover, Germany

Maggio | *May*

8° edizione Automazione e Digitale per l'Industria

Parma,
22-24 maggio 2018

Giugno | *June*

SMLA sensor

- Absolute & contactless sensing up to 800 mm
- Measurements on flat or round surfaces
- 16 bit resolution BiSS-C/SSI
- Additional incremental track

Luglio | *July*

ASB62 series

- Absolute encoder for motor feedback
- BiSS-C/SSI interface + 1Vpp sin/cos
- Resolution up to 20 bit + 2048 PPR

Agosto | *August*

XGS, XGT couplings

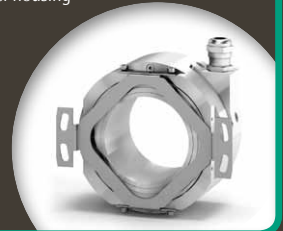

- Servo & stepper-motor coupling
- Improved limit gain
- Hunting suppression
- Reduction of stabilization time & overshoot

Settembre | *September*

C85 series

- High resolution incremental encoder
- Big hollow shaft, up to Ø50 mm
- Robust stainless steel housing

Ottobre | *October*

SMLAX ring encoder

- Absolute & contactless sensing
- Hollow shafts up to Ø230 mm
- IEC Ex certified product
- BiSS-C/SSI interface + incremental track

Novembre | *November*

November 27 - 29, 2018
Nuremberg, Germany

Dicembre | *December*

HS58 series, hi-resolution

- Solid & hollow shaft version
- Resolution up to 25 bit
- BiSS-C/SSI interface + incremental track
